

# BROKER FAQ & INFORMATION

## What sets Diamond Financial apart from the rest?

- We close 94% of loan requests we accept
- Offer a yes or no answer on a loan request in three days, **guaranteed**
- 25 years under the same name and management

## Why should we consider using Diamond Financial?

- Typically, bank employee turnover rates can exceed 50% in a single year, and SBA loans are an exceedingly small percentage of any bank's portfolio. We have been SBA-only for 25 years and have closed over \$1 billion in transactions because we focus solely on SBA financing.
- One of the largest SBA lenders in the nation admitted to us that they approved less than 30% of all requests they receive, on top of long wait times for approval. We offer an answer in three days, and 94% of our accepted requests close.
- We are the go-to source for many lenders and clients for anything SBA.

## Do you pay fees?

- Our firm does NOT pay fees, but greatly increase your commissions. Remember that transaction that you thought should have secured financing, but didn't? We'll close more of your deals than any direct lender. We provide an answer on a complete loan request within 3 days and we close 94% of our accepted requests.

## By using Diamond Financial, you will receive:

- Consistent and positive results
- 94% success rate
- Working with recognized experts
- Answers within days, not weeks
